

New Expiration Date to Driver Examination Forms

With the addition of the Vision Evaluation Report (MCSA-5871), the expiration date of the entire collection of forms has been updated from 12/31/2024 to 03/31/2025

Which forms have the new expiration date?

- Medical Examination Report Form, MCSA-5875
- Medical Examiner's Certificate, Form MCSA-5876
- Insulin-Treated Diabetes Mellitus Assessment Form, MCSA-5870
- Vision Evaluation Report, Form MCSA-5871

Please note that the only change to the forms is the change in the OMB expiration date from 12/31/2024 to 03/31/2025

"Medical Examiners should start using the forms with the 03/31/2025 date as soon as possible. However, MEs that have purchased these forms in bulk, or require time to reprogram electronic system forms, **may continue to use the old forms until stocks have been depleted or forms have been reprogrammed** but should transition to use of the new forms as quickly as possible. Based on this guidance, SDLAs are encouraged to continue to accept these forms."
