Support our National Effort !!

It Reads:

Good Morning,

I hope everyone is doing well during this time. I imagine you are dealing with a significant amount of additional stress. I also understand the difficulty truckers are facing with staying on the road and the lack of supportive services.

In an effort to alleviate a small amount of this stress, I thought it might benefit you to know that our facility will remain open to perform the "essential health services" required to keep you on the road. Such services include **certified medical exams, drug and alcohol testing**. You can also have the peace of mind that we are providing a safer environment as we do not treat "sick" people in our clinic.

Our Clinic is a Safer Environment for Drivers.... Where "Sick" People DON'T Go.

I'm sure you are aware of the FMCSA waiver which temporarily extends expiring medical certificates until June 30th. While this offers some relief for truckers, it could cause a medical exam rush and difficulty obtaining an exam in the future. As drivers look to get a new CDL physical, there could be up to one million needing a certificate on or before June 30th. **For this reason, I am recommending that drivers keep a current medical card.**

To provide the safest environment and most convenient services possible, we ask that you call ahead to schedule an appointment.

We look forward to serving you and promise to do our best to keep you truckin'.

Please feel free to contact us anytime with questions.

Sincerely,

Dr. _____
