Benefits of Mobile DOT Physicals

1. Accessibility

Health checks are too important to ignore, but scheduling challenges, traffic, and work demands often make it difficult for drivers to schedule them on time. A mobile unit brings the doctor right to you or your workplace. This means minimal disruptions to your work schedule and no more excuses for your drivers.

2. Flexibility

Many mobile clinics allow drivers to schedule their own appointments. Truckers, commercial drivers, and workers in safety-sensitive roles have important, demanding jobs with irregular schedules. Sometimes, a clinic with 9-5 hours just won't work. A mobile clinic lets you work around busy timelines and set up an appointment when it is most convenient.

3. Quick Results

If you are onboarding new drivers, you want them available to work as soon as possible. If you are a veteran driver, you don't need the hassle of waiting for results. You'll get results immediately when you use a mobile DOT physical. The certified medical examiners are experienced experts in DOT requirements and have mastered efficiency.

4. A Healthier Workforce

If you choose to bring a mobile medical unit to your workplace, you'll bring wellness directly to you. Physical exams go beyond the DOT requirements to ensure your employees are healthy. A healthy workforce is a happier, more productive workplace. Instead of being a recurring hassle, medical exams can become an easy and positive part of your company routine.

5. Navigating Regulatory Requirements

The last thing you want is to go through all the hassle of getting a doctor's appointment only to find that you missed a component of the DOT requirements and you have to start all over. Mobile DOT examiners are specialists in CDL physical exams. They will ensure that the exam meets all the regulatory requirements. One less thing for you to worry about.

6. Easy Recordkeeping

Employers are required by law to keep all DOT physical exam records for three years. A mobile DOT physical clinic will get you the records you require, but they will also keep those records on file so you can access them again any time you need. If you have a large number of employees, a mobile DOT physical will make certification and record-keeping easy.
